## PRODUCT CATALOGUE

MAY 2024

Sektor specialises in delivering innovative and efficient technologies for the retail, networking, security, healthcare, ergonomics and mobility markets. Our passionate, dedicated and deeply knowledgeable team is second to none, offering unparalleled industry and technology expertise to help our partners build winning solutions for their customers.

## Humanscale®

Since their founding, Humanscale has pioneered the healthy, active workspace.

Humanscale is the premier designer and manufacturer of ergonomic products that improve health and comfort at work. They believe the best designs in the world are based on purpose and function, and for this their innovations have been honoured with more than 200 prestigious awards since 2007. If a design solves a functional problem as simply and elegantly as possible, the resulting form will be honest and timeless.

Sustainability of both design and materials is at the heart of what they do, and they solve functional problems as simply and elegantly as possible while consuming less of the Earth's limited resources.

## MONITOR ARMS - KEY FEATURES

### MONITOR ARMS

Featuring innovations like their patented Weight-Compensating Spring Technology and Smart Stop functionality, Humanscale monitor arms are designed to enable the personalisation and flexibility needed for today's evolving workplaces.

#### M2.1

Standard single or dual monitors

2.3kg - 7kg for flat screen monitor  
2.3kg - 5.7kg for curved screen monitor

#### M8.1

Heavy single or dual monitors

2.7kg - 12.7kg for flat screen monitor  
2.7 - 9kg for curved screen monitor

#### M10

Up to three monitors & large TV formats

9kg - 21.8kg for flat-screen monitor  
9kg - 13.6kg for curved screen monitor

### KEY FEATURES

1. Quick release joints

2. Smart stop at 90, 180 or 360 degrees

3. Built in tools for easy installation

4. Stops desk overhang, ideal for smaller desks

5. Rubberized Cable Management makes it simple to run cords through a modular system for a clean, sleek and organised aesthetic

6. Counterbalance indicator

## MONITOR ARMS - M2.1

### M2.1

M2.1 meets a variety of configuration needs for lighter monitors from 2.2kg to 6.8kg.  
Now available in a dual configuration.

	Previous Part Number	New Part Number	Description
	M21CMWBTB	M21TBW	M2.1 Single Arm with Clamp Mount, in Polished Aluminium with White Trim
	M21CMBBTB	M21TBB	M2.1 Single Arm with Clamp Mount, in Black with Black Trim
	M21BTWBTB	M21BBW	M2.1 Single Arm with Bolt Through Mount, In Polished Aluminium with White Trim
	M21BTBBTB	M21BBB	M2.1 Single Arm with Bolt Through Mount, In Black with Black Trim
	X22CMWMTBMTB	X22DBW	M2.1 Dual Arm with Clamp Mount, in Polished Aluminium with White Trim
	X22CMBMTBMTB	X22DBB	M2.1 Dual Arm with Clamp Mount, in Black with Black Trim

## MONITOR ARMS - M8.1 AND M10

### M8.1

M8.1 meets a variety of configuration needs for single monitors from 2.7 to 12.7kg or – with an optional cross-bar support – dual monitors up to 5.44kg each.

	Previous Part Number	New Part Number	Description
	M81CMWBTB	M81TBW	M8.1 Single Arm with Clamp Mount, in Polished Aluminium with White Trim
	M81CMBBTB	M81TBB	M8.1 Single Arm with Clamp Mount, in Black with Black Trim

	M81CMBB2B	M82CBB	M8.1 Dual Arm with Clamp Mount, in Black with Black Trim

### M10

Built to hold heavier equipment, a strong triple crossbar allows M10 to hold up to three monitors or 48 pounds – all while maintaining a simple and sleek design.

	Previous Part Number	New Part Number	Description
	M10CMWBTB	M10NTNCWBTB	M10 Single Arm with Clamp Mount, in Polished Aluminium with White Trim
	M10CMBBTB	M10NTNCBBTB	M10 Single Arm with Clamp Mount, in Black with Black Trim

## MONITOR ARMS - M/FLEX AND MONITOR ARM ACCESSORIES

### M/FLEX MONITOR ARM SYSTEM

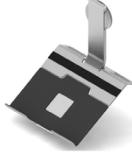

M/Flex, Humanscale's multi-monitor arm system, can go from one to six monitors in minutes, without the need for tools. M/Flex can integrate with any standard work surface through a wide number of attachments on a single post, seamlessly transforming a traditional workspace into a dynamic, ergonomic workstation. As monitors continue to evolve, M/Flex's versatility makes it the perfect multi-monitor solution for a changing technology landscape.

**NEW  
PRODUCT**

### A PATH FOR EVERY BODY

#### Inclusivity Included

Each Path contains a patented Gravity Mechanism™ that uses body-weight rather than bulky controls. As you sit, the mechanism engages. When you recline, it gently lifts, so your body becomes the natural counterbalance, and is firmly supported wherever it stops. This creates virtual pivot points that allow Path to move with you in complete harmony

#### Made to last

One pillar of sustainability that's often overlooked is one of the most obvious - longevity. We couldn't call Path the world's most sustainable task chair if it wasn't also the most durable. Our exhaustive testing ensures that - beyond retaining perfect function - Path looks and feels like new after more than a decade of heavy use.

#### Sustainability

52% recycled content from - Comprised of ocean plastic, post-consumer plastic bottles, and post-industrial material, Path's recycled content makes up over half of its material composition and weight.

Form Sense Eco Knit's recycled yarn is made of approximately 68 plastic bottles per chair.

## WORLD ONE CHAIR

### WORLD ONE CHAIR

World One chair is the most minimal, yet fully-functional, task chair ever made. Featuring the same innovative tri-panel mesh backrest and weight-sensitive recline that Humanscale is renowned for, World One is a cost-effective solution that delivers unmatched ergonomic support and the ultimate user-friendly sitting experience.

Like all Humanscale chairs, World One's design eliminates the need for traditional mechanisms by using the laws of physics and the sitter's body weight to offer a perfect recline. World One features armrests that are attached to the back of the chair and move with the user, providing custom comfort throughout the workday. A high-value task chair with minimal parts, World One was built with longevity in mind, to look as good in ten years as it does today.

## LIBERTY AND SMART OCEAN CHAIR

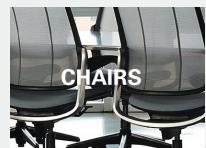

Smart Ocean utilises material from discarded fishing nets that have been collected in an effort to develop innovative solutions to prevent ocean plastic pollution. The nets are transformed into plastic pellets and then used to manufacture Smart Ocean chairs. Smart Ocean is the first-ever ergonomic chair to be built with recycled net and is also certified by the International Living Future Institute to the full Living Product Challenge — meeting

FISHING NETS

PELLETS

CHAIRS

the most rigorous sustainable manufacturing criteria to date.

Smart Ocean is Living Product Certified, meeting the most rigorous sustainable manufacturing criteria to date. This means that Smart Ocean is climate, water and energy positive. Every time we make these products the planet is better off. With a mission to create a healthier world, we are proud that over 60% of our products are certified net positive.

## DIFFRIENT SMART CHAIR

### DIFFRIENT SMART CHAIR

The Diffrient Smart chair is an intelligent mesh task chair with a striking linear aesthetic that complements any environment. Engineered to provide automatic lumbar support for every user, as well as simplicity and ease of use, Diffrient Smart offers comfort, style and flexibility.

Diffrient Smart was created by designer Niels Diffrient and, like Humanscale's Liberty and Diffrient World chairs, uses Humanscale's revolutionary Form-Sensing Mesh Technology and mechanism-free recline for perfect support for every user.

### DIFFRIENT SMART CHAIR

## FREEDOM HEADREST & FREEDOM TASK CHAIR

### FREEDOM HEADREST & FREEDOM TASK

The Freedom chair uses the laws of physics and the sitter's body weight to provide instant, custom support for every sitter. This perfect balance allows the user to effortlessly move, but be fully supported in each position. As a result, users change postures often, which leads to a more healthy and comfortable sitting experience.

### FREEDOM TASK

## WARRANTY

---

\* Modifying or tampering with any part of the base of the Float Table will render the warranty void. The warranty on the Float Table applies to the base and work surface if the table top is provided by Humanscale, and only to base if the table top is provided by a third-party, provided that the third-party table top meets the following requirements: (i) has a depth of 36" or less, (ii) has a width of 72" or less, and (iii) the total weight load including work surface is no more than 130 lbs for the standard base and no more than 160 lbs for the heavy duty base.

\*\* Note: Ballo is not a task chair. It has not passed the BIFMA or European EN standards for office seating. The Ballo is an exercise chair that is designed for dynamic seating and frequent movement. All Ballo instructions should be followed to ensure a comfortable experience.

\*\*\*Natural characteristics such as growth marks, horn scratches, small healed scars, veins, and irregular grain

and color structure are typical of genuine leather. Humanscale does not warrant for marks, scars, grain, or wrinkles occurring naturally in leather.

†The warranties for the Vessel lights exclude labour and other costs associated with the installation and/or removal of the lights from ceilings, walls, fixtures, etc. Further, Humanscale has no warranty obligations if the product is affected by internal or external environmental conditions (including but not limited to water, moisture, outdoor use, or temperature damage), power fluctuations, improper power supply, or if the product is not installed and used in compliance with all applicable standards and electrical codes.
